1. INTRODUCTION

We are based in Dubai and our group company's operations are spread across the GCC countries. Our operations started in 1976 and for over 4 decades we have been providing a wide range of Transportation, Plant Hire & Earth work related services to clients across UAE.

We become one of the major contributor in UAE to its Transport, Plant Hire and Diesel Generator Rentals Industry.

Currently AL SHOLA offers a wide range of services to our customers, which includes...

- PLANT HIRE
- LAND TRANSPORT
- EARTHWORK CONTRACTING
- POWER RENTALS
- TEMPORARY COOLING
- LOGISTICS SERVICES

Our overall aim is to meet our customers' needs with best possible services levels with top quality equipment and at a highly competitive level of pricing.

4. OUR VISION & VALUES

Vision

To become one of the major player in
Transporting, Contracting & Plant Hire industry in Middle East.

Mission

Providing Quality Products and Services in safe
and environment friendly manner.
Providing Total Solutions for Customer Requirements

Values

Reliability, Integrity & Team Work
Keeping Quality Fleet of Assets
Human Capital is our greatest asset
Systematic Operation Environment

5. QUALITY POLICY

We aim to exceed our customer's expectations by providing the highest quality products and services. We achieve this through safety, quality and teamwork. AL SHOLA commits to:

- Maintain the best industry standards in its business and continually improve our business processes and systems;
- Comply with statutory obligations, specifications and codes of practice relevant to quality management;
- Excel in fleet availability, utilisation and quality;
- Provide staff with ongoing training and development opportunities; and
- Identify report, investigate and resolve all non-conformities and take corrective actions to prevent recurrence.

This Quality Policy is reviewed annually. Any improvements identified from this review will be included in the Quality Policy to increase effectiveness.

6. HSE POLICY

AL SHOLA has a responsibility to protect its employees, contractors and visitors from health and safety hazards as far as reasonably practicable. We also have a similar responsibility to protect the environment from any adverse effects from our operations. Health, safety and the protection of the environment are of equal importance as our primary business and quality objectives. The preservation of human, physical and environmental assets is vital to the success and efficiency of our business.

AL SHOLA will seek to conduct its operations in such a way as to prevent harm to its employees, visitors and to all other people affected directly or indirectly by its activities and to maintain the highest practical standards of safety, occupational health and protection of the environment.

AL SHOLA has set out the following generalized objectives with respect to health, safety and the environment.

- To prevent all injuries and reduce accidents at the workplace.
- To provide a safe and healthy working environment.
- To establish safe working practices throughout its operations.
- To provide training for all employees to help them work safely and protect the environment.
- To comply at all times with all statutory and customer obligations with regards to health, safety and environmental protection.
- To maintain, practice & update emergency response procedures.
- To analyse risks associated with its operations and define effective remedial or contingency plans.

We believe that health; safety and the protection of the environment are everyone's responsibility and it requires the direct involvement of all managers, supervisors and employees.

In line with our HSE policy, we require the commitment of every employee to comply with these rules. Time to time we conduct programmes on health, safety and environmental protection to increase its awareness among our employees. In this manner, we are being able to manage and counter the hazards of our operations.

7. COMPANY RESOURCES

a. Manpower

Management Staff: 15

Engineers & Office Staff: 35

Drivers, Operators: 230

Mechanics, Technicians, Helpers: 170

b. Plant & Machineries

MACHINERY	Model/ Spec	MAKE	QTY

8. PLANT HIRE

ALSHOLA offers wide range of modern earth work equipment's for hire. With an in-house workshop facility & a team of mechanics for all kind of service and repairs, we ensure that the downtime is kept to a minimum during unexpected breakdowns.

a. Machineries Offered

Earth Work Machines

WHEEL LOADER - CAT 950 & CAT 966

BACKHOE LOADER - J C B 3CX / CASE

BULLDOZER, CAT D8 / KOMATSU D155 & D275

EXCAVATOR, 20T, 30T, 40T, 80T, KOMATSU PC200, PC300, PC400, PC800

MOTOR GRADER, CAT 14 G/H

ROLLER COMPACTOR, DYNAPAC CA25

SKID LOADER, BOBCAT / CASE

Cranes

HIAB GRAB CRANE TRAILER -7 & 10T, MERCEDES

TELE HANDLER, MANITOU / CAT

HYDRAULIC CRANE, 25T, 50T & 60T, TADANO

Note: Additional attachments for specialised requirements are available on request.

9. LAND TRANSPORT

We are one of the largest fleet owners of modern transport vehicles, which is supported with our in house workshop facility & a team of mechanics for all kind of service and repairs.

a. Transport Vehicles Offered

Following are the various types transport vehicles we can offer.

TIPPER TRUCKS, 20 Cub. M, 30 Tons, MERCEDES

TIPPER TRAILERS, 45 Cub. M, 75 Tons, MERCEDES / SCANIA

FLAT BED TRAILERS, 40FT 2 Axel, 40 Ton, 12M length, MERCEDES

LOW BED TRAILER, 3 Axel, 80 Ton, 10M length, MERCEDES / SCANIA

Sweet Water Bowser 5000 Gallons

Salt Water Bowser, 5000 Gallons

10. EARTH WORK CONTRACTING

AL SHOLA is UAE's leading independent Earth Work Contracting Company with vast experience. Since our inception in 1976, we have been engaged in various prestigious projects in UAE.

a. Services Offered

Following are the various types of contracting activities we can undertake

- Excavation & Cart Away
- Pile cutting
- Trench/Tunnel Excavation
- Area Grading
- Bulk Filling with Suitable Filling Sand
- Watering, Compacting and Rolling

b. Key Earthwork Projects Executed

Below mentioned are some of the key projects we have handled so far.

S/N	Client	Scope Of Work
1	Korea Heavy Industries - Dewa Project	Area Grading, Filling Work, Watering, Compacting And Rolling Jabel Ali Power Project, "E" Station
2	Scantech - Dewa Project	Trench Excavation, Turf Placing, Bulk Filling With Suitable Filling Sand 27 Kms Route
3	Mitsubishi Corporation - Dewa Project	Site Preparation 25,000 M3

4	N T P C 132 Kva Sub Station - Dewa Project	Site Preparation. Back Filling 30,000 M3
5	Dutco Construction - Dewa Project	Supply of Fill Materials, Watering, Compacting And Rolling In Layers
6	S S Lootah - Dewa Project	Subkha Access Road for Transmission Line Jabel Ali – Aweer 47 Kms
7	Al Ahmadiyah Contracting - Jebel Ali Village Project	85 Villas for H H Sheikh Hamdan Back Filling 90,000 M3
8	Dugas	Earthworks For MTBE Site
9	Oilfields Supply Center - Jebel Ali Yard Project	Area Grading, Hard Pack Top 100,000 M2
10	Ssangyong Engineering & Construction Co - Grand Hyatt Project	Grand Hyatt Hotel Sub Structure Excavation and Cart Away Between Pile 70,000 M3. Tunnel Excavation - 14,000 M3
11	Ssangyong Engineering & Construction – Grand Hyatt Project	Grand Hyatt Hotel – Filling with Subkha for Landscaping 300,000 M3
12	Ssangyong Engineering & Construction – Grand Hyatt Project	Al Ghurair North Garage Excavation, Pile Cutting And Cart Away 40,000 M3
13	Al Ghandi Group – Aweer Project	Back Filling 60,000 M3
14	Orient Irrigation Services – Dm Project	Access Road Around Mushrif Park - 10 Kms
15	Higgs & Hill Llc – Standard Chartered Bank Project	Standard Chartered Bank Building Excavation And Cart Away 30,000 M3
16	Higgs & Hill Llc – Rais Hassan Saadi Project	Rais Hassan Saadi Jabel Ali. Excavation, Back Filling, Pile Cutting Area Grading
17	Cleveland Bridge – Jebel Ali Project	Area Grading, Site Preparation
18	S S Lootah Cont. Co – DM Project	Cutting and Cart Away of Top Soil, Replacing with Garden Soil and Leveling Quantity 100,000 M3
19	Hyundai Engineering & Construction – Dewa Project	Site Preparation With 70,000 M3 Road Base Filling
20	Ginco Contracting – Tasjeer Project	Site Preparation With 100,000 M3 Filling Sand
21	Desert Landscape – Dm Project	Cutting and Carting Away 4,000 M3 Supply And Leveling The Garden Soil 20,000 M3
22	Orient Irrigation Services – Dm Project	Supply and Leveling Of Garden Soil 120,000 M3

23	Al Naboodah & Bin Hafiz Cont. Co – Dm Project	Supply Of 50,000 M3 Subkha
24	J & P (Overseas) – Dm Project	Supply Of 300,000 M3 Subkha
25	Dutco Balfour Beatty Llc – Sharjah Cement Factory	Internal Roads And Ramp Filling
26	Al Naboodah Cont. Co – Jebel Ali Airport Logistics City	Dubai International Airport Expansion (Phase Ii) Ax 56 Earthworks and Piling Transport of Excavated Materials Approx. 2,750,000 M3 Dubai International Airport Expansion Grading, Leveling And Fencing to East Side Ax 146 Transport Of Excavated Materials
27	Khansaheb Civil Engg / Swissboring – Convention Center Project	Convention Center and Hotel Excavation and Cart Away of Excavated Materials For Car Park, Podium Approx. 400,000 M3
28	Middle East Foundations Group – Emirates Operations Center Project	Excavation and Carting Away of Excavated Materials Approx 300,000 M3
29	Middle East Foundations Group – Jafza Project	Excavation & Cartaway of Excavated Material Approx – 200,000 M3
30	Middle East Foundations Group – Near Ramada Hotel	Excavation & Cart Away of Excavated Material – Approx 50,000M3
31	Buset	Excavation to 9M Depth & Cartaway of Excavated Material – Approx 70,000 M3
32	Middle East Foundations Group – 7 Building Project At Al Mamzar Site	Excavation Tp 13M Depth and Cartaway of Excavated Material – Approx 45,000 M3
33	Al Naboodah – Khawaneej Site	Excavation and Cart Away of Excavated Material – 200,000 M3
34	STFA – Sheik Zayed Road Site	Excavation and Cart Away of Excavated Material And Excavated Between Piles – Approx 80000 M3
35	Stfa 109	Excavation and Cart Away of Excavated Material – Approx 100,000 M3
36	Stfa 112 – Dip Site	Excavation and Cart Away of Excavated Material – Approx 40000M3 And Pile Cap Excavation – 10000 M3
37	Stfa 115	Excavation and Cart Away of Excavated Material – Approx 80000M3 And Pile Cap Excavation – 13000 M3
38	Al BastiMukhta – Marine Project	Excavation & Cart Away of Excavated Material – Approx 30000 M3
39	Swiss Boring – Marina Project	Between Piles Excavation and Cart Away of Excavated Material And Also Pile Head Cutting

40	M.E.& G. Airport Free Zone Jafza Project	Excavation and Cart Away of excavated material upto 200,000M3
41	Middle East Foundation Group Near Ramada Hotel	Excavation and Cart Away of excavated material upto 50,000M3
42	Buset	Excavation and Cart Away of excavated material upto 70,000M3
43	Middle East Foundation Group Near Al Mumzar Site	Excavation upto 10M and Cart Away of excavated material upto 150,000M3
44	Middle East Foundation Group Near Islamic Bank Project	Excavation upto 13M and Cart Away of excavated material upto 45,000M3
45	Al Naboodah - Khawaneej Site	Excavation and Cart Away of excavated material upto 200,000M3
46	AL HABTOOR STFA SITE 114 on Sheikh Zayed Road	Excavation and Cart Away of excavated material and between pile excavation of 80,000M3
47	AL HABTOOR STFA SITE 109	Excavation and Cart Away of excavated material and between pile excavation of 80,000M3
48	AL HABTOOR STFA SITE 112 Dubai Investment Park	Excavation and Cart Away of excavated material of 40,000M3 and between pile excavation of 10,000M3
49	AL HABTOOR STFA SITE 115	Excavation and Cart Away of excavated material of 80,000M3 and between pile excavation of 13,000M3
50	Al Basti&Mukhta Marina Project	Excavation and Cart Away of excavated material of 30,000M3
51	Swiss Boring Marina Project	Excavation and Cart Away of excavated material of 80,000M3 and between pile excavation of 13,000M3
52	Middle East Foundation - Al Ghurair City Expansion	Excavation and Cart Away of excavated material of 200,000M3

11. POWER RENTAL

AL SHOLA is one of the KEY PLAYER in Temporary Power Solutions in UAE with a fleet size more than 450 Units of Diesel Generators from 50KVA to 1250 KVA.

a. Rental Services Offered:

- **Diesel Generators from 50 KVA till 1250 KVA** with synchronisation capability, distribution boards, Power cables, change over switches etc.

- **Power Plants from 1 MW to 20 MW-** Power Plants with multiple Generators with synchronising & load management system.
- **Diesel Tanks** -Fuel tanks are available in sizes ranging from 250 I.G. to 5,000I.G. These tanks are available in double walled & spill protection modules.
- **Load Banks & Transformers**
- **Portable Air Compressors [375 to 825 CFM]**
- **Mobile Tower Lights [1000W x4]**

b. Sales & Service Activities:

- **Sales, Installation & Commissioning of New Generators** with Perkins/ Cummins Engine for any size
- **Sale of used Generators:** We regularly update our well-maintained fleet of Generators. Our pre-owned units are available for sale on time to time.
- **Breakdown services, AMC &Over hauling services** of any make Diesel generators for all sizes.
- **Automatic Transfer Switch [ATS]:** To assure your generator starts when it is needed, we provide Automatic Transfer Switches (ATS) to meet every voltage and site requirement for both indoor and outdoor application.
- **Paralleling/ Synchronizing of Generators:** If your application requires multiple generators to work together or as a complete power plant, we can supply you the right Paralleling Switchgear to assure they run properly and when needed. We use ComAp [www.comap.cz] make units to do this.

c. Range of Rental Fleet

Diesel Generators

EQUIPMENT	Model/ Spec	MAKE
DIESEL GENERATORS [Low Power]	[50-150 KVA], 50 Hz @ 400V	Cummins/Perkins/ Volvo/CAT
DIESEL GENERATORS [Medium Power]	[200-650 KVA], 50/60 Hz @ 380/400/415V	Cummins/Perkins/ Volvo/CAT
DIESEL GENERATORS [High Power]	[800-1250 KVA], 50/60 Hz 380/400/415V	Cummins/ /CAT/KOMATSU

Notes:

- Power requirement above 1250 KVA can be executed by providing multiple units with synchronizing & Load sharing system can be applied to increase the fuel efficiency.
- We can provide Generators on the basis of any rating standards like Continuous/ Prime/ Standby.
- Generators with Zone-2 compliance for On Shore & offshore applications/ with dip tray & bunded Fuel tanks can be supplied as per requirement.

Generator accessories

Items	Specifications
Flexible Power cable	Single Core cable with sizing 120, 150, 185, 240 sq.mm
Distribution Boards/ LV Panels	With Current capacity from 2000 to 10000 Amps
Diesel Storage Tanks/ Bunded Diesel tanks	From 500 to 5000 Imperial Gallons Capacity
Transformers for LV to HV	400V-6.5KV, 400V -11KV, 400-22KV

Temporary Power Plants:

Range: from 2MW to 20 MW with Voltage range from 400V, 6.5KV, 11KV, 22KV

Portable Air compressors:

Compressor capacity, CFM	Working pressure, in Bar	Make of the Compressor
375/400	7 & 10	Atlas Copco, IR, Sullivan Pallatek
600	7 & 10	Atlas Copco, IR, Sullivan Pallatek
800/825	7 & 10	Atlas Copco, IR, Sullivan Pallatek

Light Towers:

Rating	Make
1000w x 4	Wacker Neuson, Terrex, Tower Light

d. Type of Power Projects we handle

a. Power for Construction sites

AL SHOLA supply temporary Diesel Generators to a number of leading companies within the construction industry. Applications range from site office power, power to tower cranes, commissioning and testing purposes, temporary accommodation, piling and foundation works.

b. Power for Office and Buildings, Yachts Etc...

AL SHOLA provides uninterrupted power to **Office and Buildings for their temporary needs**. The Power system includes synchronized Generator units with fuel tanks, cables, isolators and common bus-bar to ensure the most reliable power supply.

c. Power for Temporary Cooling

AL SHOLA supplies (synchronised) diesel generator units to leading temporary cooling companies. The full turnkey temporary power facilities are fully commissioned and ready to operate within 12 hours of the equipment leaving the AL SHOLA facility.

d. Mega Watt Projects

We provided Multi MW Power for many large Projects in the Middle East. Our Large projects are managed by professionals with years of work experience in large power plants.

e. Events and Exhibitions

We have been chosen to provide temporary power solutions to a number of leading events within the region. Our solutions are chosen over the traditional options, due to the high quality of its equipment with regards to reduced sound levels and improved reliability through onsite support and maintenance backup.

f. Special Projects

AL SHOLA has been the preferred supplier for a number of high profile power projects. It includes supplying power to government institutions as well as mission critical power projects such as tunnel boring machines (TBM) where reliable uninterrupted power at high voltage is critical.

12. TEMPORARY COOLING

AL SHOLA Offers Air cooled industrial chillers along with the required accessories like Chilled water pump & water hoses] for your specific temporary cooling requirements.

We provide world reputed make of energy efficient high ambient capable chillers with Individual capacity of 100 Tons/ 200Tons and its multiple combinations for higher capacity requirements.

We also offer wide range of package A/c Units along with the required accessories like air hoses for your specific temporary cooling requirements. We provide world reputed make of energy efficient high ambient capable A/c units with Individual capacity from 10 to 25 Tons.

a. Air Cooled Chillers

Our rental services are backed with a huge inventory Chillers. This will help us to provide chillers for your requirements on time. Being a reputed rental solutions provider, ALSHOLA offers you the newest rental chiller fleets with an average age of less than 4 years. Renting from AL SHOLA ensures that your rental chiller is one of the most reliable and energy efficient chillers in the rental industry.

We keep our service staff all across UAE to provide on time support on 24x7 basis and this will ensure maximum availability of the hired equipment.

If you have a requirement, we can provide you the complete temporary cooling solution by meeting all your needs through the following process.

- Studying the requirement
- Selecting the right chillers
- Providing units on time
- Installation and commission the system

The chiller services can be offered along with our Generators for the cases that require temporary power.

13. LOGISTICS SERVICES

AL SHOLA started its logistics operations under a company called AST MIDDLE EAST LOGISTICS L.L.C and it operates to meet your specific needs in Freight Forwarding & Transportation. With state-of-the-art facilities across UAE and GCC, we offer an integrated portfolio of end to end supply chain solutions by Road. Below mentioned will detail the products and services we can offer you from AST MIDDLE EAST LOGISTICS.

Area of Operation: UAE / GCC / Iraq / Afghanistan / Beirut / Lebanon and whole of Africa

Type of Operations: Exports via Land / Sea and Air

Fleet of Equipment's:

Flat Bed Trailers / Low Bed Trailers / Curtain Sided Trailers (12 Mtr., 15 Mtr., 18Mtr., 28 Mtr. & 30 Mtr.) SPECIALIZED TRAILERS.

Service Portfolio

- Land & Sea Freight
- General Cargo Haulage
- Port Clearing & Forwarding
- Heavy Lift & PDO Trailers
- Bunker and Lube oil services
- Material Handling Operations
- Rig Moving and Rig Support Services
- Loading and Offloading Equipment
- Building Material Supply (Whiter Sand, Red Sand, Aggregates, Rocks)

Transportation Technology:

Our trucks, as per our Customers request are assigned with VEHICLE TRACKING SYSTEMS (VTS) Customers are able to track shipments on vehicles anywhere in the world, 24 hours a day, via an internet based VTS. Customers will be able to gain access to the vehicle tracking systems, by requesting us to supply with unique user name and password This allows our Customers to view the tracking site and obtain latest update information on their Cargo.

Special Services

We handle oversize Cargo transportation & Land Transportation from GCC to France.

14. AL SHOLA ADVANTAGE

- **Fleet of Equipment's:** We can offer wide range of Equipment's from Land Transport, Earth Moving, Power Rental segments to meet your varying demands comes from infrastructure projects.
- **Synchronising & load sharing system:** In Power Rental Products, we can synchronize multiple DG sets to meet your higher KVA Needs or to economise the system for its fuel consumption while function on varying load demand. We use the most reliable ComAp brand Synchronizing & Load Management system to get you're the best reliability.
- **24 x7 Service Support:** Our Power Rental Products are supported with 24x7 services. We promise that any kind of breakdown service requirements will be responded with 30 minutes max. of 2 hours.
- **Service capability:** We have a good team of engineers & technicians with sound knowledge on Electrical, Diesel engine to handle any kind of electrical/ mechanical problems. Our Service team is equipped with Pick Up cars & Service Vans to resolve the technical issues at site itself. We have a full-fledged workshop facility in DUBAI & FUJAIRAH to handle any major issues.
